

Top-executive coaching with horses

„Bring your leadership horsepower on the road completely“

- ❖ Are you a **credible and sovereign executive**?
- ❖ **Is your communication convincing and confident**, even without organizational might at hand?
- ❖ Do you wish to live out and **boost** your leading potential effectively and **efficiently**?

There is no style sheet for being a good executive.

Leadership is legitimatised by credibility and authenticity, both building confidence.

Factors of success of accredited and legitimated executives are:

- ❖ They live out their full potential and act confidently in a balanced way
- ❖ They have natural charisma and they are trustworthy
- ❖ They communicate clearly and convincingly, and they can lead different people to success by means of their high social competence.

Exclusive offer for you: you will get **clear, independent** feedback on your leadership behaviour by two renowned coaches and a horse. You will learn about specific behavioural optimisations to help you become the **best leader that you can be**.

Experience with horses is not mandatory. Riding is not part of the coaching.

Benefit from innovative coaching methods and the leading personalities of distinguished commanders.

Why horses?

- ❖ Horses are able to mirror clearly and without prejudice. They react to body language instinctively, as they live in hierarchic structures just like executives do.
- ❖ They give direct feedback about credibility, confidence, fixity of purpose, mental strength and competence in leadership.
- ❖ They only subordinate to natural authority and sovereignty.
- ❖ To identify and master the principles of leadership with horses will help you when you are interacting with other people or cultures.
